AI SOFTWARE ENGINEER / SOFTWARE DEVELOPER

Telecommunication Engineering student focused on Artificial Intelligence and software development, with hands-on experience building full-stack, AI-powered, and real-world web applications. Interested in AI, backend systems, and practical technology solutions.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, HTML, CSS
- **Frameworks & Technologies:** React, Next.js, FastAPI, Node.js, Express, Tailwind CSS, Socket.io
- **AI & Data:** LLM Integration, OpenRouter, Natural Language Processing, Text-to-Speech
- **Tools & Platforms:** Git, GitHub, Vite, Supabase, REST APIs, PWA
- **Other Skills:** Problem Solving, Analytical Thinking, Team Collaboration, System Design

PROJECTS

Slide2Audio – AI Document-to-Audio Platform

React, FastAPI, OpenRouter, Microsoft Edge TTS

- Built a full-stack application that converts PDF, PowerPoint, Word, and text documents into spoken audio using AI-powered processing.
- Implemented AI Lecture, AI Podcast, and Direct Reading modes with multi-voice neural TTS and transcript support.

QuizDuel – AI-Powered Multiplayer Quiz Platform

React, Node.js, Express, Socket.io, OpenRouter

- Developed an AI-powered quiz platform that generates custom multiple-choice questions from uploaded study materials.
- Implemented real-time 1v1 multiplayer, synchronized gameplay, room-based invitations, scoring, and rematch functionality.

KNUST CWA Predictor

Next.js, TypeScript, Tailwind CSS, Zustand

- Developed a responsive academic planning application for calculating and simulating KNUST students' CWA.
- Implemented scenario modeling, target CWA analysis, course impact analysis, shareable scenarios, and CSV export.

Maths Hub Online – Online Mathematics Learning Platform

Full-Stack Web Development, Supabase, Payment Integration

- Designed, developed, and launched a production web platform for an online mathematics tutoring business.
- Implemented tutor discovery, curriculum-based resources, session booking, user accounts, and online payment workflows.

EXPERIENCE

Cybersecurity Intern / Trainee

Sep 2026 – Present

Virtual Infosec Africa

- Undergoing practical cybersecurity training focused on security concepts, tools, and hands-on technical skills.

Software Engineering Intern

2026

Cortexx Community

- Contributed to software engineering and AI-focused projects while gaining hands-on development experience.

Hackathon Developer – HealthPass

2026

Anthropic Claude Code Builders Club, KNUST

- Collaborated with a team to develop a healthcare system for improving access to patient records across healthcare facilities.

Organizing Committee Member

2025/2026 Academic Year

Telecommunication Engineering Department, KNUST

- Supported the planning and coordination of departmental activities and student initiatives.

Head of IT Department <i>Islamic Enlightenment Foundation International</i>	Accra, Ghana
Led technical operations, managed digital systems, and supported IT initiatives.	
Senior Programmer – Computer & Robotics Club <i>Mfantsipim School</i>	Sept 2024
Led programming activities, mentored students, and supported technical projects.	
Graphic Designer & Organizer – Mfantsipim School GMSA 	Sept 2024
Designed promotional materials and supported event organization.	

EDUCATION

BSc Telecommunication Engineering <i>Kwame Nkrumah University of Science and Technology</i>	Present
Senior High School (General Science) <i>Mfantsipim School</i>	Sept 2024
